WORK EXPERIENCE

Microsoft | PM

Bellevue, WA (remote)

September 2021 - now

PM II

Microsoft Search Relevance- M365 Chat (Copilot)

- Working as part of RAG / Grounding team on large scale ML models for Copilot. Working across Indexing (e.g. embeddings), Matching & Ranking (e.g. Lexical, Semantic), Summarization on LLM powered search experience
- Leading the quality and evaluation for:
 - A personalized search experience built on user activities for Files (e.g. PowerPoint, Excel, Word, etc) and Extensibility
 - Extensibility in M365 Chat (Copilot). Establishing offline/online measurements & success metrics (e.g. Clicks, LLM labels, etc) for hill climbing, regression, etc.
 - Onboarding new content sources (e.g. Power BI, Viva Engage) to M365 Chat (Copilot)

PM I

- Worked as part of the User Understanding in Microsoft Search Assistant and Intelligence (MSAI) in M365 Core
- Program lead for Natural Language Understanding/Processing in Outlook Emails
 - Tracking key metrics and making data driven decisions
 - Identifying key areas of gap and finding/driving solutions and working with partner teams
 - Managing team of 11 members (Software Engineers, Data Scientist, Developers)
 - Opportunity analysis for new features and key upgrades

Microsoft | PM Intern

Bellevue, WA (remote)

May 2021 - August 2021

- Conducted a competitive analysis of the Enterprise Search landscape with a focus on Natural Language
- SWOT Analysis of the Natural Language Search landscape
- Communicated with Leadership team and co-workers about past documents and updating information
- Analysis for Language support between enterprises and a roadmap to success for Microsoft
- Impacted the UU and MSAI Leadership team by helping decide next key value-added implementations

Amazon | PM Intern

Nashville, TN (remote)

May 2021 - August 2021

- Wrote a proposal for reducing 20% of accidents every year due to weather or external factors
- Worked with Middle Mile team for creating an user experience that fetches and sends alerts based on severe weather to drivers and carriers. Analyzed yearly safety data for trends and opportunities for increasing efficiency. Speed up package delivery times.

- Analyzing weather patterns and visualizing the data to help predict navigational path changes and actions needed to be taken for drivers and carriers
- Created new SOPs
- Created a safety matrix for different driver situations and solutions for mitigation

LEADERSHIP EXPERIENCE

Hult Prize at UNCC | Co-Founder

August 2018 - November 2020

- Crowd-funded university competition to create ideas around current social issues (clean water, clean energy, food shortages)

Consult-your-Community UNCC | Co-Founder

August 2018 - November 2020

- An organization that allows university students to help struggling small-medium size businesses
- Leverage learnings into real word applications

First Robotics Competition | Team Captain

August 2014 - June 2017 (student) June 2017 - August 2019 (team mentor)

- Earned the most banners for a team in NC history. We earned a bid to the international competition in Houston, Texas. We placed 7th, our first time in team history being one of the top alliances out of the 300+ teams competing.

Winterville Youth Council | VP

August 2016 - June 2017

- Passed an ordinance to repair sidewalks near my local elementary school to allow for students and teachers with a safe walking area.

CERTIFICATIONS & INTERESTS

Certifications:

- Economics of Money and Banking- Columbia University
- Principles of Management- John Hopkins University
- Proficient in Microsoft Office
- Proficient in SQL and Microsoft Access- Database management
- SkillSoft- Developing SQL Data Models
- SkillSoft- Querying Microsoft SQL Server
- SkillSoft- Tableau Certified

Interests:

- Efficiency with automation
- Driving a successful end-to-end customer experience
- Machine Learning and Deep Learning models
- Natural Language Understanding/Processing
- Mixed Reality (Virtual and Augmented)
